TOWN OF CHAPEL HILL
Residential Service Parking Permits
Rules and Regulations

Businesses, such as contractors, realtors, property managers, or non-resident landlords often need to do work in residential areas of town, and need to park their vehicles. Residents may have construction work being done on their property and need to have multiple service vehicles that need parking. In both examples the Town offers the Residential Service Parking Permit.

Residents may be eligible for up five parking permits for vehicles.

Businesses that do work in many residential areas may also be eligible for a permit.

The definition of essential vehicle is one that the business requires to be on-site due to bulk of items being used in the professional service, and/or the need for repeated trips for tools or parts to and from the vehicle.

The permit fee is \$25 per month or \$150 per year / per vehicle and is only usable in the Residential Permit Parking Zones throughout Town.

My signature acknowledges receipt of these Rules & Regulations. I agree to abide by these Rules & Regulation and I understand that failure to use the permit correctly may result in revocation of the parking permit and imposition of civil and/or criminal penalties.
